# GET THE LATEST LOOK

## A FRESH TAKE ON INDUSTRIAL STYLE

A trend that has gained traction over the past few years, the influence of industrial design remains strong going into 2022. A more accessible twist on the trend is emerging, however, moving away from the typically exposed piping and raw brickwork seen in New York lofts to a softer, more organic feel that blends cement surfaces with warm wood and Matt Black brassware for a directional yet entirely livable look.

For an aesthetically pleasing nod to the past, inject a sense of Crittall style to the bathroom with a Harlem shower screen. The Revolution Reversible Sink in white, which contrasts beautifully with the warm wood finish of the Tuscany Countertop, adds another historical element, as does the Revolution brassware range, which features an intricate knurling detail inspired by robust machinery of the Industrial Revolution.

## THE POWER OF COLOUR

In line with this year's more optimistic outlook, colour is back. Offering up a cheerful palette that ranges from matt pink, thistle blue, fern green, dusky pink to buttercup yellow and terracotta tones, the options for a brighter, bolder bathroom are endless.

Elevate your aesthetic with a coloured washbasin and tiles set in vibrant tones against an otherwise neutral palette for a fresh take on Scandi style, or layer up a rainbow of hues and textures for a candy-bright space with retro-inspired appeal. Colour-blocking offers another impactful way to introduce colour, from solid swathes of your favourite shade against a black or white base or by layering contrasting colours for a mood-boosting pop to brighten up your day.

## SPA SANCTUARY

In the bathroom, calm and serene reigns supreme with rejuvenating spa spaces designed to rebalance the mind, body and soul.

Luxury finishes combine with advanced customisation to deliver an outstanding bespoke experience. Relax in a private steam room complete with aromatherapy, chromotherapy lighting and an integrated sound system, and experience the soothing power of the natural world indoors with modular waterfall, rain, mist, and cascade shower solutions, while feeling uplifted by additional body sprays, jets, RGB lights and more. The finishing touch? A luxurious freestanding or inset spa bathtub with a choice of nano, whirlpool and air jets, chromotherapy lighting, and the revolutionary integrated MILK spa treatment system for an at-home experience that represents the ultimate in indulgence.

## THE REINVENTION OF MARBLE

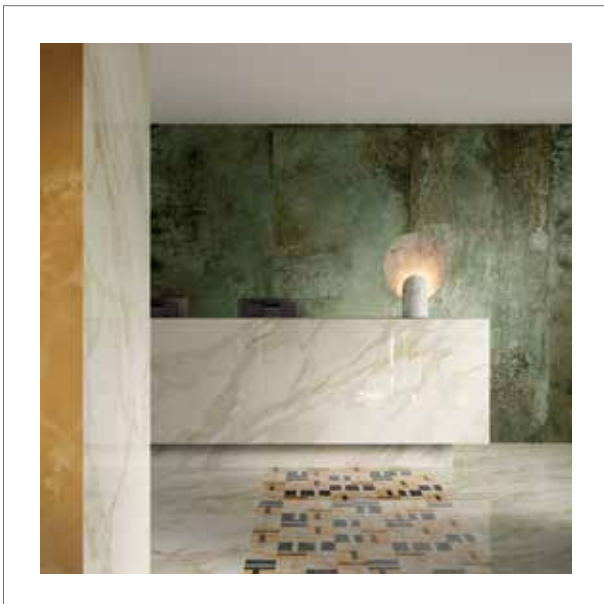

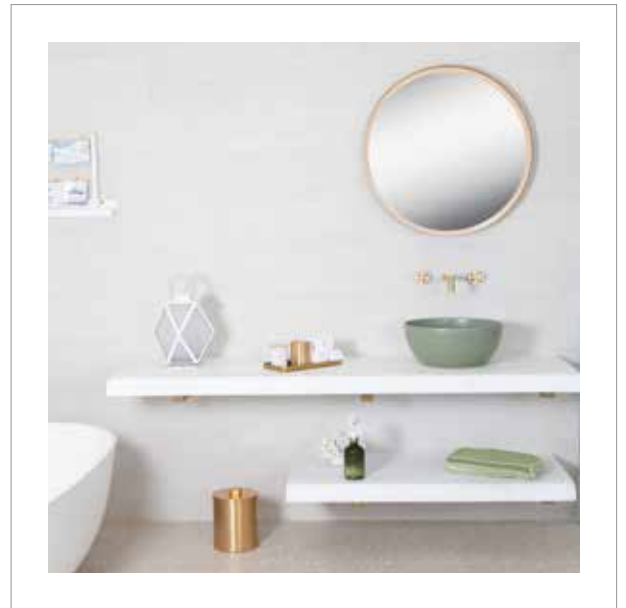

Marble is having its moment, expanding from tiles and slabs to encompass washbasins and brassware detailing for an opulent and elegant look. With various unique patterns, finishes, shades, and textures to choose from, marble is an incredibly versatile material that can be used on any surface to elevate any aesthetic.

Opt for rich agate-inspired tones and patterns to amplify maximalist impact, pair a sleek black marble washbasin and matt black brassware with slabs of white finely-veined Carrara marble for a luxurious twist on modern minimalism, or introduce textural depth to biophilic styling by layering slab flooring and walls with countertops and accessories in a variety of richly-hued organic patterns, tones and textures.

## THE BEAUTY OF BRUSHED BRASS

As the cocooning trend increasingly takes hold, the warmth of brushed brass introduces a softer, more welcoming and yet luxurious feel that perfectly captures the current mood. As a renewed appreciation for our home comforts continues to build, quality finishes that introduce an air of hotel-chic elegance are more popular than ever before.

High-quality brassware in a luxurious brushed brass finish is an ideal way to channel the trend. BAGNODESIGN's exclusive Lacquered Zanzibar finish has been extended across more of our design-led collections, offering even more versatility with endless options to introduce the finish to a wide variety of aesthetics. From the clean fluid lines of Koy to the perennially popular M-Line, Lacquered Zanzibar adds a fresh element by which to create stunning spaces designed to stand the test of time.

## SEAMLESS SLABS

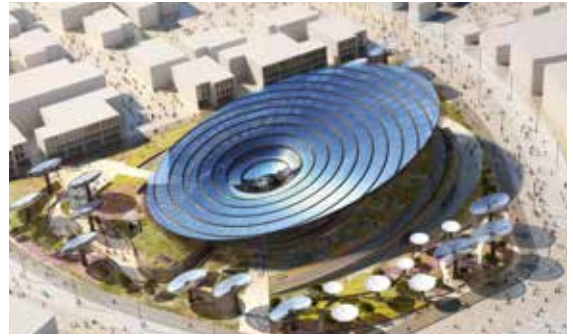

As our homes become increasingly hybrid spaces used for work, rest, and play, the desire for distinct areas that provide a specific function is gradually being replaced by the need for fluid spaces that shift in line with our changing needs.

Vast stretches of large-format slabs used for both wall and floor surfaces are the foundation by which to create a harmonious sense of flow, effortlessly extending from indoor to exterior areas for a look that brings the outdoors in. At the same time, slabs featuring organic finishes, such as marble, terrazzo and wood effects, offer an uninterrupted expanse of seamless surface that perfectly showcases the beauty of the pattern for maximum impact. By opting for large-format tiles or slabs, fewer grout lines are visible to the eye, creating both the illusion of spaciousness and resulting in the sleek effect that is the hallmark of the majority of on-trend contemporary aesthetics.

BRUSHED NICKEL

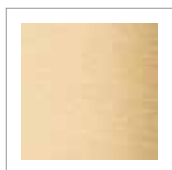

PVD GOLD

BRUSHED COPPER

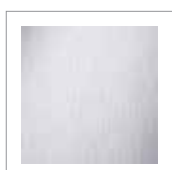

MATT BLACK

LACQUERED  
ZANZIBAR\*

ANTHRACITE

BRUSHED  
STAINLESS STEEL

---

The appeal of coloured brassware is widespread. Designers look for new and innovative finishes in order to create distinctive looks in their designs. At BAGNODESIGN, finishes are the essence that make our products stand out. We create finishes that stay true to the overall sense of style and craftsmanship that we aspire to bring to our customers.

In addition to the ever-popular Chrome, we offer refreshing alternatives that help to define the look of a bathroom and in turn the entire home. Our on-trend Matt Black and brushed brass Lacquered Zanzibar finishes are popular for their subtle elegance. This year we have added a new PVD Gold finish that promises to add a dash of drama and opulence to the bathroom.

---

Finishes are the distinguishing factor that add to the individuality of a room. Mix and match products and finishes to create a look that expresses a sense of style and personality.

\* Zanzibar is a semi-living finish and may change overtime with a slight finish variation.

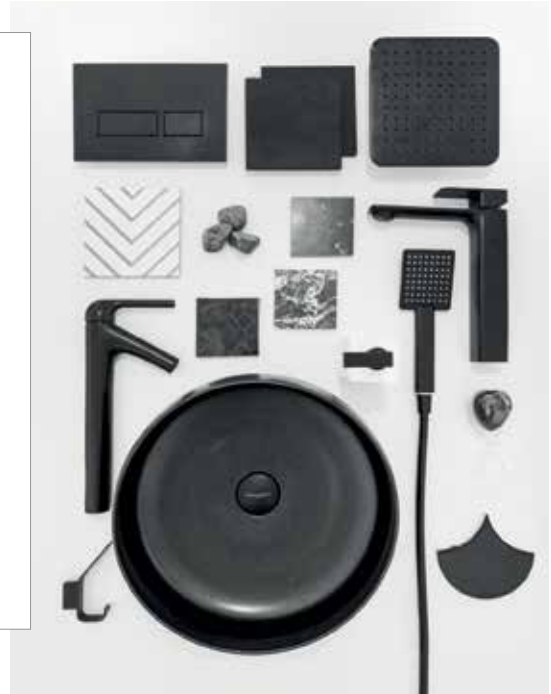

# TRENDING BRASSWARE

## Matt Black

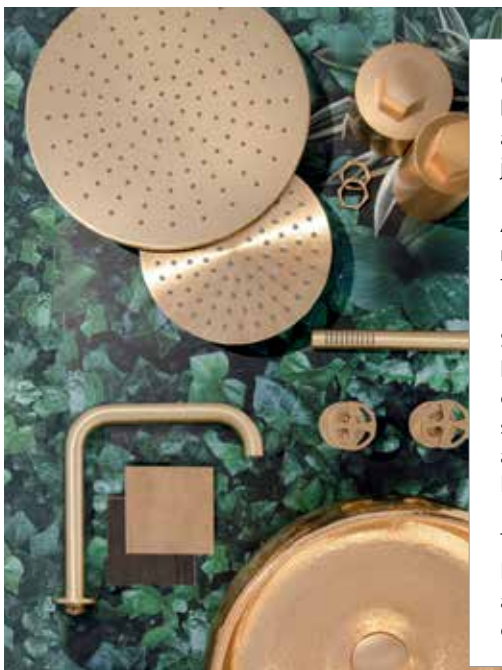

In the world of trending brassware finishes, Matt Black continues to be chosen as a sophisticated and modern option. Offering a great contrast to natural tiles and lighter hues, many designers and passionate homeowners have shown great interest in playing with this understated, yet standout, finish.

Exemplifying contemporary sophistication, Matt Black has emerged as a popular choice available in several BAGNODESIGN collections. Our Harlem shower panels are accented with a Matt Black grid for a soft industrial look that is all the rage this year. The new Ombra collection offers storage units in Matt Black perfectly suited to complement our Harlem collection; and as ever we have an abundance of brassware choices.

We even marry technology with style to bring you touchless mixers in the sophisticated Matt Black finish. For perfect pairings, you can find Matt black sanitaryware, accessories and all that lies between from the Zephyr, Koy and Revolution collections as well as the Teatro, M-Line, Mezzanine and Harlem ranges.

## Lacquered Zanzibar

Our very own Lacquered Zanzibar finish is hugely popular for its light, brushed brass look. A modern re-invention of a design classic, Lacquered Zanzibar is an alluring alternative to gold. Warm-toned fixtures in Lacquered Zanzibar offer just the right amount of depth and luxury to any space.

As a natural material, brass fits into the current trend of introducing organic materials into the modern bathroom, making Lacquered Zanzibar the perfect fit for any setting.

Simple to translate into any style of bathroom, Lacquered Zanzibar creates a luxurious impression whether introduced around the wash basin, bath, shower or all three. Our all-new Revolution collection brings a range of mixers in the soft Lacquered Zanzibar finish. Match this with Lacquered Zanzibar wash basins and mirrors from our versatile Monroe collection, and finish off with an Options Round shower head in Lacquered Zanzibar.

The ever-popular M-Line collection has also introduced new mixers in Lacquered Zanzibar; while new accessories from Options Round collection are also available. Creating an abundance of choice for a perfectly co-ordinated design.

## BASINS

BAGNODESIGN offers a comprehensive unique collection of feature washbasins using natural materials such as solid marble, glass, stainless steel and re-constituted stone.

The BAGNODESIGN range of basins are installed in many of the world's most prestigious hotels, restaurants, bars and residential developments and are specified for their aesthetic and tactile qualities.

Also on offer are a wide selection of the durable and stylish ceramic basins ranging from countertop vessels, semi-recessed, wall-mounted and the ever practical undercounter versions in a wide range of shapes and sizes.

The newest addition to our offering are the freestanding, wall hung and countertop Alpine basins, made from porcelain slab tiles covering a waterproof foam, ensuring the seamless sleek design is also durable.

| Verbier

The Hotel Chic trend sees many walls blending into countertops and basins to create a sleek and contemporary-yet-timeless look.

The most imaginative of designs can be found with the Alpine range; the 756 products on offer include 11 basin designs and 4 countertops with a choice of 18 tile colours. This makes the Alpine range our most versatile to create your signature style. Choose from freestanding to wall hung options, with double basins and extended countertop styles available.

We strive for quality and durability to the very core of our products – the base of the Alpine range is made from Wedi; an extruded polystyrene rigid foam that is reinforced with glass fibre and coated with a polymer-modified cement providing a smooth surface for tiling. The result is mould and fungus proof but above all it is 100% waterproof.

It is through extensive deliberation and feedback from all our team members that we brought the selected 18 finishes to the offering, covering minimal to maximalist tastes.

The various marbles used have been chosen for their strong concentration of fossils and as they are a purely natural product, there will always be the presence of different variations of veins, colours and shades, as well as micro-cracks and small holes. This gives each piece the characteristic of being truly unique.

Basins on this page do not have tap holes.

The various marbles used have been chosen for their strong concentration of fossils and as they are a purely natural product, there will always be the presence of different variations of veins, colours and shades, as well as micro-cracks and small holes. This gives each piece the characteristic of being truly unique.

Basins on this page do not have tap holes.

# Belleze

DECORATIVE BASIN

**MADE IN ITALY, MADE BY HAND, MADE WITH PASSION.**

Made in Deruta, in the Umbria region of Italy, the handcrafted and handpainted basins are all unique pieces of art which will without doubt form a focal point in any bathroom. Each individual piece is made by experienced Italian artisans, with its own story to tell. The various designs, patterns, materials and colours all blend together to result in a basin which adds its own unique character to the bathroom.

## COUNTERTOPS

Countertops are a sleek solution for bathrooms that do not require storage. Many wooden effects and styles are available across our ranges to infuse the warmth of nature into the bathroom. Whilst stone and marble finishes can be found in our Alpine range. Handmade from porcelain slab tiles adorning a non-porous waterproof Wedi base, we bring you a hotel chic appeal with the ability to coordinate your wall tiles to basin and shelf – for seamless coordination.

Vanity units and additional storage options are available in the Furniture & Sanitaryware section.

## FURNITURE & SANITARYWARE

The BAGNODESIGN portfolio of stylish furniture and sanitaryware combines traditional craftsmanship and directional design with the latest in technological innovation.

Created to complement a wide range of aesthetics, from the understated elegance of Japandi and Scandi styles to organic biophilic and opulent maximalist looks, our quality collections are designed in line with the latest global trends.

With an extensive range of freestanding, countertop and inset washbasins, bidets, and WCs in different finishes including classic white, matt black, matt grey, and an on-trend palette of colourful hues, our products are incredibly versatile. In addition, a choice of modular furniture solutions work to suit any size or shape of space, with countertop options in richly-veined marble, warm natural wood, soft bronze and more.

With endless options to choose from, exceptional quality and durability, and high levels of service and after-sales care, BAGNODESIGN is ideal to meet the needs of all kinds of residential and commercial projects, from new builds through to refurbishments.

Monroe is an edgy, urban collection with its two metallic cabinet finishes 'Oro' and 'Platinum' and a beautifully matching wooden finish countertop in 'Carbone'. The vanity units are available in wall mounted and floor standing options with the luxurious push-to-open handle-free drawers allowing the furniture to be matched to any accessories or brassware finish.

Perfect for creating a stunning overall impression, the Monroe collection also has a choice of washbasins made from bronze, as well as round and rectangular mirrors (with illumination option).

FINISHES:

Harlem - a metropolitan furniture range in an 'American Oak' finish with Matt Black handle, keeping in line with the growing trend of combining natural materials with metals. The flexibility of the wall mounted vanity is reflected in the fact that a number of combinations are possible of the drawer cabinet together with an open utility unit, making this a very practical storage solution in a range of different sized bathrooms. Countertops in the same finish are available in a variety of sizes to support the diverse array of size options. The Harlem range is completed by accessories and an illuminated rectangular mirror.

## Suggested Combinations for Harlem Countertops & Vanity Basin Units

### COMPOSITION HAR A

Single Vanity Unit - 634 x 502 x 290 mm

COUNTERTOP: BDF-HAR-060-OAK  
 FURNITURE: BDF-HAR-V060-OAK  
 SIDE PANELS: BDF-HAR-P050-OAK  
 PRICE: AED : 4655.00  
 USD : 1268.00

### COMPOSITION HAR B

Single Open Cabinet - 634 x 502 x 290 mm

COUNTERTOP: BDF-HAR-060-OAK  
 FURNITURE: BDF-HAR-O060-OAK  
 SIDE PANELS: BDF-HAR-P050-OAK  
 PRICE: AED : 4275.00  
 USD : 1164.00

### COMPOSITION HAR C

Combination of Vanity Unit & Open Cabinet  
 1234 x 502 x 290 mm

COUNTERTOP: BDF-HAR-120-OAK  
 FURNITURE: BDF-HAR-V060-OAK  
 BDF-HAR-O060-OAK  
 SIDE PANELS: BDF-HAR-P050-OAK  
 PRICE: AED : 7670.00  
 USD : 2090.00

### COMPOSITION HAR D

Combination of Two (2) Vanity Units  
 1234 x 502 x 290 mm

COUNTERTOP: BDF-HAR-120-OAK  
 FURNITURE: BDF-HAR-V060-OAK (2)  
 SIDE PANELS: BDF-HAR-P050-OAK  
 PRICE: AED : 8050.00  
 USD : 2194.00

### COMPOSITION HAR E

Combination of Vanity Unit & Open Cabinet  
 1634 x 502 x 290 mm

COUNTERTOP: BDF-HAR-160-OAK  
 FURNITURE: BDF-HAR-V100-OAK  
 BDF-HAR-O060-OAK  
 SIDE PANELS: BDF-HAR-P050-OAK  
 PRICE: AED : 9275.00  
 USD : 2527.00

### COMPOSITION HAR F

COUNTERTOP: BDF-HAR-160-OAK  
 FURNITURE: BDF-OMB-070-MB  
 BRACKETS: BDF-HAR-340-MTL (x2)  
 PRICE: AED : 7295.00  
 USD : 1988.00

- Shelves can be supplied as shelves only to hold towels, toiletries etc. for use with BDF-HAR-340-MTL brackets.
- Shelves to be mounted on the unit for basins. Fixing brackets will be supplied with the unit, but NOT fixing screws.
- Shelves + units can be added to make different suggested combination.
- Smaller basin to be used on the 600 mm unit

# AXENT

SWITZERLAND

# AXENT

SWITZERLAND

The AXENT Group is a leading manufacturer of sanitary technology and a global supplier of **shower toilets**. To strengthen customer relations and extend its global reach, AXENT opened an office in the US and developed a European base in Switzerland.

AXENT's product portfolio includes leading-edge **shower toilets**, high-quality sanitaryware, as well as innovative performance technology for bathroom products.

With 300 engineers in its research and development center, alongside 1500 employees, the AXENT Group is well positioned to achieve its vision to become the world's most innovative and reliable provider of sanitary technology.

## AXENT.ONE C PREMIUM

The intelligent toilet.

This award-winning **shower toilet** brings style into your bathroom. AXENT.ONE C Premium features wash functions, a dryer, automatic opening and closing of seat and cover, night-light, VACUUM V FLUSH - our patented integrated flushing technology, an Easy Clean Glaze and the ability to conveniently control all functions via a remote control or the Axent App.

# TANKLESS TECHNOLOGY LESS IS MORE

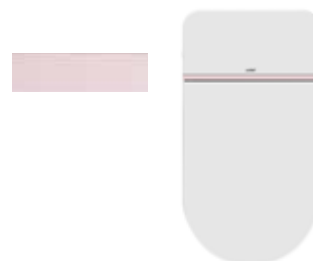

This is a world first. A toilet that eliminates the tank and works completely without electricity, saving you space and the world resources. Thanks to our patented VACUUM V FLUSH that is integrated into the ceramic, Primus is really the first of its kind - and it only uses 5l per flush. Primus also features a silent seat and our Easy Clean glaze that makes cleaning it a breeze.

# MIXERS

The BAGNODESIGN portfolio of mixers is predominantly produced at our facilities around Lake Orta in Northern Italy where craftsmanship in producing brass products dates back centuries.

When designing a bathroom today, the dominant products that create the look are the mixers and showers. BAGNODESIGN has a comprehensive offering with complementary accessories available in ten different finishes. Our new Revolution collection offers the latest Industrial/Loft look in the key on-trend finishes of Brushed Nickel, Lacquered Zanzibar, Matt Black and Anthracite as well as the ever-popular Chrome.

Our collections cover a wide range of styles from clean contemporary to classical retro. BAGNODESIGN is recognised globally within the design community as an innovator in mixers both in product design and offering new finishes such as our unique Lacquered Zanzibar.

With our vast range of BAGNODESIGN mixers, we wish to ensure that the chosen product is designed to be compatible with your household water system pressure.

- HP - 2.0+** (High Pressure) products can only be used in HP systems only
- MP - 1.0-1.5** (Medium Pressure) products can be used in MP and HP Systems
- LP - 0.2-0.5** (Low Pressure) products can be used in LP, MP and HP Systems

## TOKO THERMOSTATIC SHOWER MIXERS - *An enjoyable, reliable and safe showering experience*

*Our Toko thermostatic mixer valves are the best way to regulate the water temperature and provide you and your family an enjoyable and safe showering experience by eliminating the risk of scalding. By setting a predetermined temperature, the thermostatic shower mixer will mix hot and cold water accordingly and maintain a constant water temperature throughout the use of the shower, even if someone turns on a tap or flushes the toilet.*

*The thermostatic mixer will automatically shut down if for any reason your cold water supply stops, thus ensuring a reliable, convenient and safe showering experience.*

### **Push-Button Activated**

The mode of operation of our Toko thermostatic mixers is simple and intuitive – On and Off! There is no other need than to press the button, which is what makes Toko so unique in comparison to other thermostatic mixer valves.

### **Default Flow Rate**

The flow rate is set by default and therefore eliminates the need to make any additional adjustments.

### **Product Installation & Maintenance Are Simplified**

Our Toko thermostatic mixers are all supplied with the new 'Easy Install' installation box which offers:

- Solid wall or dry wall installations.
- Sealed installation box.
- Easy cleaning and maintenance without having to remove valve, which is pre-installed into box.
- Colour coded water entry points.
- Min-Max installation depth markings.

## GENERAL FEATURES

BAGNODESIGN Toko Thermostatic shower mixers are suitable with controlled Cold and Hot water supplies using a water chiller and water heater respectively, the installation of which should be carried out by a competent and qualified professional.

### Operating Specifications

- Hot water supply temperature:
  - Maximum: 85°C
  - Advisable: 65°C
  - Minimum: 5°C
- Cold water to between 5-20 degrees
- Minimum difference between hot and mixed temperature = 10°C.
- The temperature of the inlet hot water must be higher than the maximum mixed water temperature required from the outlet.

### Working Pressures

- Maximum: 10 bar
- Minimum: 1 bar
- Recommended Operating Pressure: 3 bar
- Hot and cold operating pressures should be kept as balanced as possible in order to maintain maximum efficiency.
- When the supply pressure is higher than 5 bar a pressure reducing valve should be fitted before the shower mixer.

### Technical Data

- The mixer is supplied with a cover plate for the installation at a depth from 72 mm to 91.5 mm.
- The temperature control knob is pre-set from the manufacturer at 38°C.
- The mixer ports are supplied with a female thread G ¾", NPT ¾".
- The thermostatic mixer is provided with an additional outlet at the base of the mixer.
- When using the bottom outlet a flow control is required between the mixer and the outlet.
- The bottom outlet is sealed with a removable plug.

### Plumbing Recommendations

- An independent hot and cold water supply is required for the shower system.
- The recommended pipe work should be 22mm minimum for low pressure system.
- If more than one shower mixer is installed, the minimum feed should be 28mm (ensure adequate supply of both hot and cold water can be maintained).

We recommend to carefully read the manual prior to using the mixer.

# NOBILI

Nobili offers pure design and incomparable technological efficiency. Innovating the industry since 1954 Nobili is not only the largest brassware manufacturer in Italy, but a pioneer in sustainability and standardising the industry - resulting in the iconic company winning numerous awards.

In 1960, Nobili innovated crafting technologies in order to utilise higher quality brass for their mixers, which elevated the quality available in the industry at that time, whilst reducing wastefulness. In the 1980's Nobili developed the ceramic disc cartridge, invested in technological water-saving research and thus propelled their pioneer status in 87 countries across the industry. Having to deal with the strict rules of these foreign markets also ensures high attention to tiny details - guaranteed by important international certifications.

Today, ecosustainability is at it's height. The Suno 100,000 square metre production plant, with three hundred machining work centres is classified as a "Zero Emission Company". Because a product designed to improve quality of life cannot be born if it is destined to destroy the world in which we live.

THG has established itself as the brand for high end luxurious bathroom fittings and accessories. Both an artisan and key industry player. THG has developed their status from 60 years of design, 60 years of dreams, 60 years of expertise & knowhow.

THG's products are designed in partnership with the world's leading Architects & design icons for truly inspirational works. Every mixer has a story, written by an artisan to create a piece of art for your bathroom.

Collection O is reminiscent of the movement of water.

Les Ondes minimal mixers are topped with a contemporary trident.

The Nihal range features an octagonal crescent spout, complexly carved to represent the eight phases of the moon, with the handles replicating lattice designs found in Eastern architecture.

Rest assured these stories are produced with the epitome of fine materials. Semi-precious stones such as malachite, white & black onyx, Baccarat & Lalique crystals, Limoges porcelain, Daum & optical glass as the finest natural marble create these exceptional pieces.

FINISHES:

Less is most definitely more, as demonstrated by the sleek minimal beauty of the new modular AXENT Zero collection by renowned designers Matteo Thun and Antonio Rodriguez. Blending clean lines and innovation to striking effect, this stunning brassware collection features a single round button integrated into the design that operates the flow of water and controls the temperature. Available in different heights and Chrome, Matt Black and Gold finishes, the AXENT Zero collection brings understated style to any bathroom aesthetic.

## SHOWERING

For the ultimate showering experience, BAGNODESIGN offers numerous options of shower heads, shower columns, mixers, and slide rail kits. All our products are designed to be compatible with standard shower enclosures and baths and our thermostatic valves are WRAS-approved. Multi-function hand showers come with up to 6 spray patterns and pressure settings and adjustable angle options to allow for customised showering. All our showering products come with a guarantee assuring you of both quality and value for money.

# STEAM SPA & WELLNESS

| Home Spa Cosmopolitan

Relax, unwind and re-charge your body!

BAGNODESIGN's high quality spa solutions provide all that is needed to create a luxury spa experience. Our modular collections of spa shower heads, chromotherapy lighting and steam rooms can be customised to create a spa bathroom that is a treat for all senses.

BAGNOSPA Modular shower heads with a variety of rain, mist and waterfall options let customers experience nature in the home, while our stainless steel shower columns take the spa experience outdoors. Our luxurious whirlpool baths come in a range of sizes and shapes to fit one, two and three users. The manufacturing process for our whirlpools is in accordance with ISO 9001 standard.

STEAM SPA & WELLNESS

**MILK System.** A pleasure for your skin

Feel healthier and younger due to the revolutionary MILK O2 Treatment 100 % pure water - no additives.

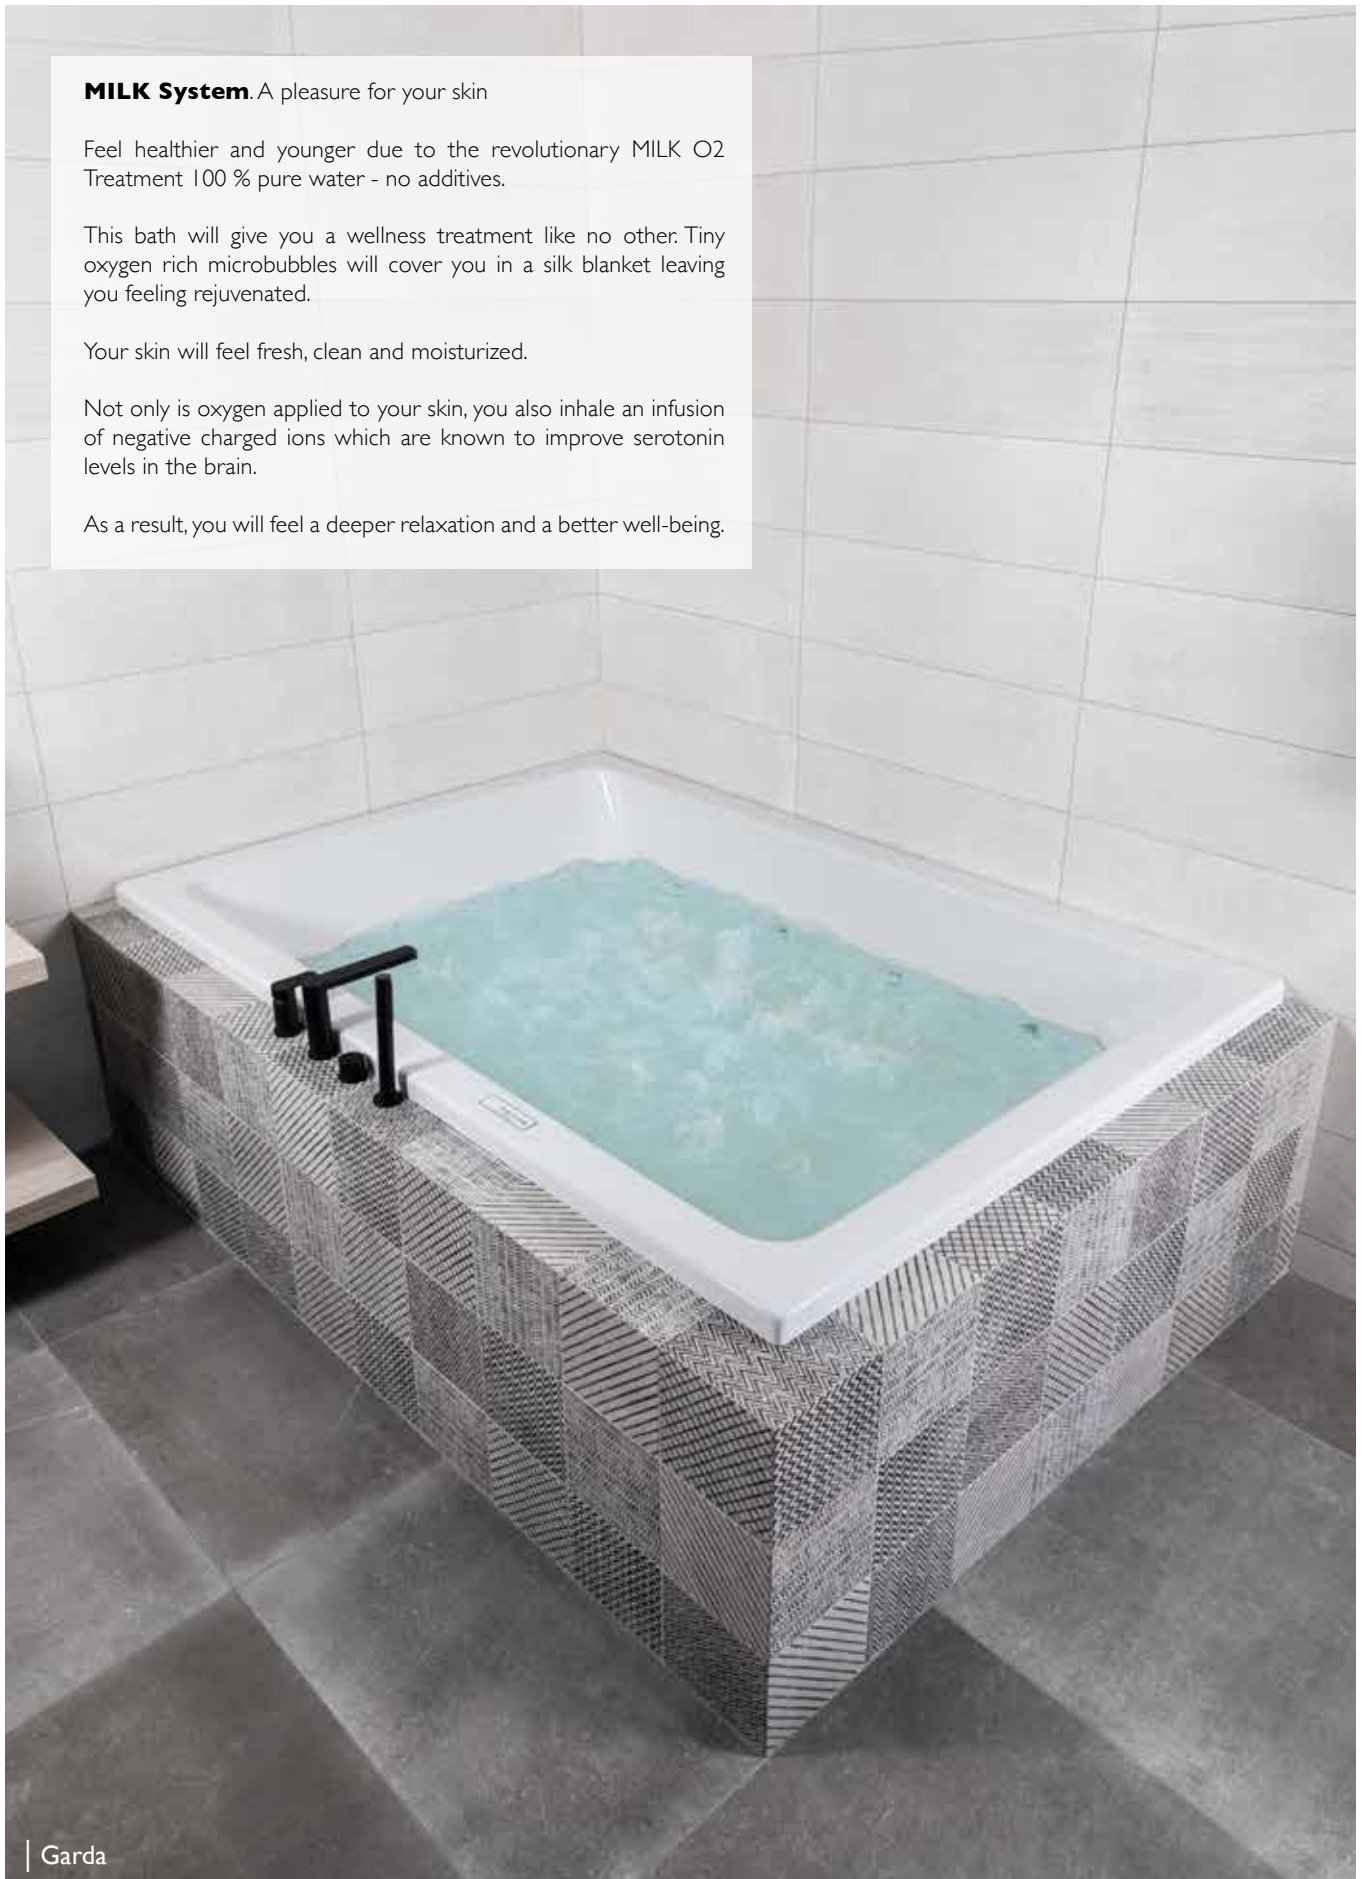

This bath will give you a wellness treatment like no other. Tiny oxygen rich microbubbles will cover you in a silk blanket leaving you feeling rejuvenated.

Your skin will feel fresh, clean and moisturized.

Not only is oxygen applied to your skin, you also inhale an infusion of negative charged ions which are known to improve serotonin levels in the brain.

As a result, you will feel a deeper relaxation and a better well-being.

# BUILDING MATERIALS

BUILDING MATERIALS

### Why choose wedi®?

With 35 years experience, wedi® is an established quality and innovation leader, operating in 36 countries. The wedi® building panel is so much more than just an item of building material. It combines a number of impressive properties in one product, to overcome many problems historically found in the bathroom.

100% internally waterproof, wedi® boards are the ideal base for plastering and tiling works. As they can be applied to practically any substrate, wedi® offers a quick, simple method of construction for new build or renovations in commercial or residential sectors.

The boards replace the need to build timely stud walls and substitute plasterboard needs for shower areas, concealing cisterns or preparing walls. They are waterproof, insulating, versatile, light and robust. Despite their size and durability, the lightweight boards can easily be cut on-site, for easy assembly and a near silent renovation – being directly tileable also speeds up installation time for projects.

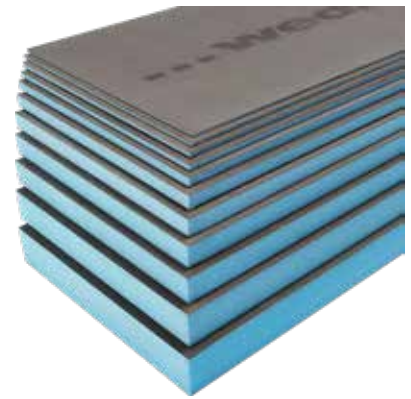

Modular forms such as shower trays, seats & benches and recess niches can also be tiled directly and provide built in comfort and functionality – whilst adding sleek design aesthetics. Functional and safe, a wedi® system efficiently builds a waterproof, bespoke bathroom.

# BATHING

BATHING

BAGNODESIGN's portfolio of bathing products can turn the bath into the focal point of any bathroom. We have a wide range of bathing products ranging from freestanding bathtubs, inset bathtubs and whirlpools that promote wellbeing. Each product is a statement piece and is available in various sizes and materials from the standard acrylic, steel and our very own Bagnotec.

Combining form and function with the finest of materials and time-tested skills, our range of beautifully proportioned bathtubs are high on quality, performance and aesthetic appeal.

# MIRRORS & BATHROOM LIGHTING

A mirror may be the finishing touch or the accent piece of any bathroom. BAGNODESIGN's range of modern and traditional mirrors in cutting edge styles are carefully curated to suit a wide variety of bathroom designs. From conventional rectangular shapes with LED lights to traditionally-styled mirrors that suit a period-style bathroom, we have a fantastic range to choose from.

# WASHROOM

WASHROOM

AQUAECO'S washroom solutions are designed for the washrooms of the future.

Washroom design today not only incorporates durability and quality, but it must also consider its carbon footprint. Our portfolio of comprehensive washroom solutions incorporates eco-friendly features that help decrease water and energy consumption. Touchless mixers, hand dryers, soap dispensers, WC and urinal flushes, paper towel dispensers, all help to reduce wastage and save costs. Touch-free washroom fixtures also vastly improve overall hygiene.

Our washroom solutions meet the highest standards of durability and quality while staying true to our promise of finely crafted designs. Our latest EX316 collection is manufactured with 316 tough-grade stainless steel, known for its better resistance to corrosion and therefore ideal for high-traffic washrooms.

## ANTI-SCALD DEVICE

The AQUAECO anti-scald device will maintain a safe temperature of hot water for appliances, a must for young children, the elderly and those requiring care.

By installing this device, the risk of scalding will greatly be reduced due to the automatic temperature detection, ensuring that when the water becomes too hot, the flow of water will stop.

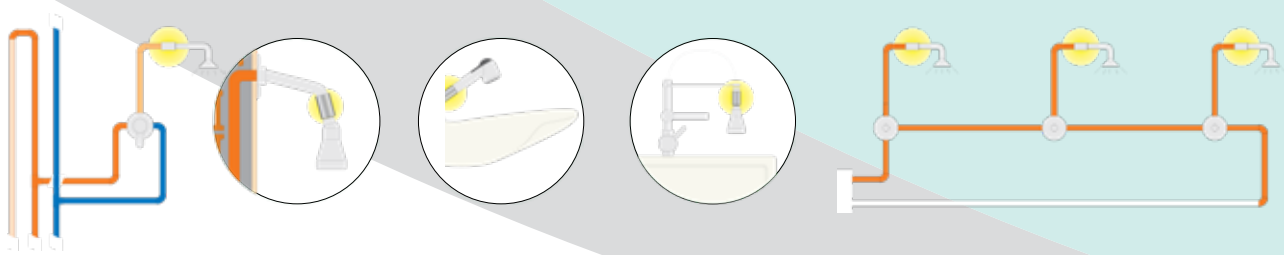

After reaching a safe temperature the device will re-activate.

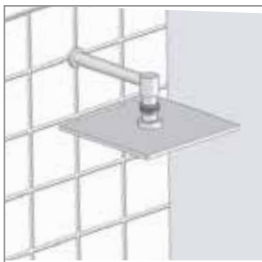

- Thermostatic temperature detector.
- Chrome brass body.
- Water flow is blocked if temperature goes above 48°C.
- Self reactivation when the temperature decreases.

### APPLICATIONS:

In Home Showers, Kitchen Mixers, Hospitals etc.

## PRESSURE LIMITER APPLICATIONS

### Shower heads/handles

- Protection against excess pressure load due to clogged nozzles or high line pressure

### Bidet Sprays

- Protection against overpressure and water hammer
- May ease operation

### Other Applications

Anti-Scald Device for Shower

**Thermostatic** Temperature Detector  
Automatically Closes when Water Temperature Exceeds 48°C

Pressure Limiter

Limits the Downstream Pressure to 1.0 bar  
Recommended for Shower Hoses/ Heads and Bidet Sprays

## WATER SAVING SOLUTIONS

- Reduce your water consumption considerably using AQUAECO's range of aerators and connection fittings with flow-limiting devices from Neoperl.
- Minimal effect to the function of the mixer or shower; does not hamper performance.
- Installing flow-limiting devices can result in a 40-50% cut in water consumption.
- AQUAECO offers various types of reducers from Neoperl, detailed below.

**Flexi Washer Flow Regulator**  
Suitable for Flexi Tails or Flexible Hoses and Shower Heads (Female Thread)

		AED	USD
NEO-58-8643	0.5 GPM (1.9 L/Min)	15.00	4.00

WASHROOM

HONEYCOMB Clinic Aerators

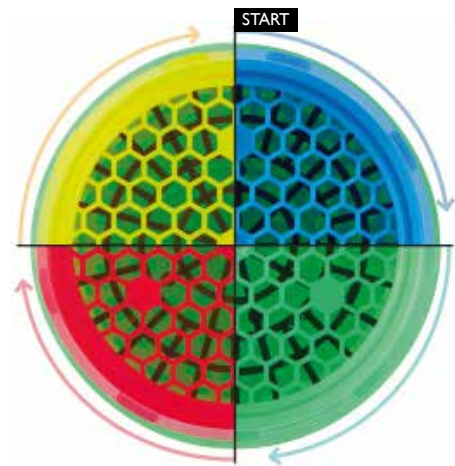

- The integrated flow limiter (Flow Class Z) ensures a constant water flow: 7.5-9 l/min @ 3 bar. This type of flow restriction makes a significant contribution to preventing unnecessary contamination as a result of water spray
- laminar stream
- only drinking water compliant materials used, as certified according to KTW (UBA), DVGW 270, etc.
- improved safety and hygiene thanks to an effective four-colour concept – each colour symbolises a replacement cycle. This means it is easy to recognise and monitor whether replacement is taking place regularly and correctly
- minimal spray and aerosol formation, therefore minimised risk of infection with waterborne legionella or pseudomonas bacteria

HONEYCOMB Clinic STD Insert  
7.5-9 l/min @ 3 bar

		AED	USD
NEO-40-2102-0A0	Blue	15.00	4.00
NEO-40-2102-0B0	Green	15.00	4.00
NEO-40-2102-0C0	Red	15.00	4.00
NEO-40-2102-0F0	Yellow	15.00	4.00

FOUR COLORS, MORE SAFETY

- More safety and hygiene thanks to an effective four colour- concept; every colour represents an exchange cycle which makes it easy to recognise and monitor whether the replacement has taken place as scheduled.
- The exchange cycle needs to be set by the facility itself since the water and operating conditions have a huge effect on the microbiological potential contamination of the aerator.

WASHROOM

# Give good hygiene a hand

The fastest most energy efficient HEPA-filtered hand dryer<sup>1</sup>

## User friendly

Tested to withstand real washroom scenarios, the durable design uses 'time of flight' sensors that accurately detect hands in 0.25 seconds to activate air and reduce waiting time. It is also our quietest Airblade to date.<sup>2</sup>

## Sustainable design

Straight line configuration allows for simpler air flow paths, meaning less energy consumption<sup>3</sup>. And efficient aerodynamics means the Dyson digital motor draws up to 87% less energy<sup>4</sup> than a warm air hand dryer. Lowering costs to just \$19/year to run in Eco mode.<sup>5</sup>

## HEPA filter

Fleece-lined glass fiber HEPA filter captures 99.95% of particles,<sup>6</sup> including bacteria and viruses, from the washroom air.

## 10 second dry time<sup>7</sup>

Ergonomic drying angle and Curved Blade™ design follow the curves of your hands to remove water quickly, for fast, comfortable hand drying.

## Dyson digital motor V4

Using digital pulse technology, the Dyson digital motor V4 spins up to 75,000 times a minute in Max mode.

<sup>1</sup>Dry time and energy consumption calculated for Max mode. Dry time was determined using Dyson test method 769 based on NSF P335 to a measurement of 0.1g residual moisture.

<sup>2</sup>Average loudness (measured in sones) compared to Dyson Airblade™ hand dryers.

<sup>3</sup>Compared with other Dyson airblade models.

<sup>4</sup>Measured in Eco mode.

<sup>5</sup>Average electricity price US\$ 0.1/kWh for the US market, as of May 2019. For calculations visit [www.dyson.ae/calcs](http://www.dyson.ae/calcs).

<sup>6</sup>HEPA filter tested to EN1822-5, by an independent testing laboratory, under prescribed test conditions.

<sup>7</sup>Dry time determined for Max mode using Dyson test method 769 based on NSF P335 to a measurement of 0.1g residual moisture.

WASHROOM

When space is at a premium and energy-efficiency is a priority, this modular, touch free, behind-mirror hand wash system from Dolphin has got all the answers - quick to install, easy to replenish, and a pleasure to use.

Designed with input from architects, designers and clients, Alavo uses the latest technology - including infrared sensor taps, foam soap systems and high-speed low energy dryers - to save time, water, energy, soap, space and money. As an all-encompassing unit, Alavo leaves no mess on the floor and designers are free to add their own touches in the space it saves.

With everything fully integrated, the Alavo radical “plug and play” design also minimises time spent on installations; it’s a natural fit in any modern washroom, and also exceptionally easy to maintain and service.

Presenting the latest in infrared technology, the Dolphin touch-free taps eliminate the need for manual operation. Hands-free functioning not only ensures less wear and tear but also improves hygiene. The unique Self-Monitoring Analysis and Recording Technology (SMART) allows facilities managers to connect via the Dolphin InForm App when used with the (optional) Bluetooth Adaptor and easily keep track of and analyse water usage. The data can be used to modify settings such as flow rates, water run time, etc. and save water.

Hand-crafted and built for long-term performance, the spouts are elegantly encased in a stylish design and wall-mounted for a neat finish.

# MEDICAL & SUPPORTIVE SOLUTIONS

MEDICAL &  
SUPPORTIVE  
SOLUTIONS

Our portfolio of medical and supportive solutions make it easier and safer for people with limited mobility to navigate and use the bathroom. Specially-designed brassware, sanitaryware, grab bars and shower seats add convenience for the elderly, patients and care givers. Our range of assisted accessories are suitable for any commercial, industrial, domestic or hospitality environment. The high quality and reliability of our products enable us to offer up to 10 years warranty on our supportive solutions.

All of the above Pneumatic Dual Flush Plates are supplied as standard with a 4 m long pneumatic tube which enables the plates to be installed away from the concealed cistern if desired. Direct access to the cistern is still required for remote location use.

Concealed Cisterns on pages 482-484

FLUSHING  
SOLUTIONS

**FLUSHING SOLUTIONS**

- **More Space:** Since concealed cisterns are built into the wall, they free up a considerable amount of bathroom space that would otherwise have been taken up by the cistern.
- **State-of-the-art technology and durability:** The AQUAECO range of concealed cisterns boasts high-tech working parts to ensure trouble-free operation.
- **Design freedom:** Homeowners and designers can pair their choice of actuator or flush plate and wall-hung or floor-standing toilet pan to perfectly complement their bathroom’s particular style and design.
- **Easy to clean and hygienic:** Concealed cisterns and wall-hung WC pans provide the ideal easy-to-clean and optimum hygiene solution – no obstacles to clean around or cisterns to clean under.
- **Good for the environment:** All AQUAECO cisterns contain a dual-flush mechanism, helping to reduce running costs by saving water – using as little as two litres of water for a half flush.
- **Noise reduction:** Since the cistern is built into the wall, any noise created by the process of flushing is significantly reduced, making this an ideal solution for en-suite bathrooms. This is also a key in any hospitality requirement.
- **Strength:** All AQUAECO cistern frames are designed and built to support up to 400 kg in weight.
- **Warranty:** All AQUAECO cisterns come with an impressive 10 year warranty.

## KITCHEN

The kitchen sink and mixer are the most used items in the kitchen and BAGNODESIGN's portfolio offers numerous styles, sizes and finishes, coupled with versatile functionality to suit any kitchen environment. Our pull-out spray mixers provide amazing flexibility and control for day-to-day tasks.

Single handle controls provide extreme convenience allowing both flow and temperature to be regulated with just one lever. Our Firehouse mixer provides this functionality, available in two sleek finishes, the Firehouse will look at home in a New York-style loft apartment.

Under-the-sink filters are normally favored by home users, where the filters are mounted under the sink and connected directly to the Kitchen Mixer with additional drinking water outlet (AQM-ECO-364-) giving access to fresh filtered water that is ideal for drinking, cooking, washing fruit and vegetables

Filters work by removing any contaminants that might be present in the water such as sediment particles, trihalomethanes (THM's) and also focuses on removing any metals, bacteria, chemical residues and other volatile organic compounds.

Water filters can help to reduce the risk of certain cancers by removing chlorine and chlorine byproducts from the drinking water. A solid block carbon water filter will also selectively remove contaminants from drinking water while retaining healthy mineral deposits that balance the pH of the drinking water.

FILTERS ARE TESTED AND ACCREDITED BY NSF (NATIONAL SANITATION FOUNDATION) AND ANSI (AMERICAN NATIONAL STANDARDS INSTITUTE) AND TESTED AGAINST WORLD HEALTH ORGANISATION AND MUNICIPALITY STANDARDS.

# TILES

| FAP

Surface coverings are a defining factor in the aesthetics of a room. Wall and floor tiles come in innumerable textures, shades, finishes, formats and sizes, which can be mixed and matched to achieve a desired look and feel that completes the décor of a room. Our unrivalled collection of tiles is sourced from the best companies around the world and brings together the latest trends and innovations all under one roof in our Tile Studio.

The latest large-format slab tiles are in high demand with their seamless surfaces that create an illusion of space and allow for beautiful designs with flowing vein patterns. Explore our tile collections from Del Conca, FAP Ceramiche, Ceramiche Coem, Fioranese Ceramica, Surfaces by Bagnodesign and many more.

DEL CONCA - We give shape to beauty

We design surfaces to bring your dreams to life, to accompany an ever more aware and tailored emotional mode of living, where quality, experience and technology come together to create new forms of shared beauty.

With its ever-present product lines, Delconca is able to satisfy all the design requirements of design, architecture and living styles.

A sophisticated mix of woods, marble, stones, concrete, cotto or metal surfaces available in variety of sizes and thicknesses, forge a stylish mood board to inspire continuously evolving ceramic solution, revealing a dynamic and always innovative design vision.

Always ahead in innovation and technology, its research and experimentation, allows creation of porcelain stoneware with very high-definition graphics, resistance to wear, chemical agents, and easy to clean surfaces, suitable for environments exposed to extreme external stresses, an authoritative testimony of a MADE IN Italy culture. One of largest producers of Porcelain Stoneware created to live outdoors, thereby making Delconca the leader for outdoor tiles in 1, 2 and 3 cm thicknesses.

## THE TILE

**Tradition meets modernity.**

FAP Ceramiche offers a catalogue of over 30 collections: decorated, coloured, polished or satin-finish tiles; lines that take their inspiration from marble, stone or wood; mosaics and special trims for a perfect finish. A range of white-body covering products that include both traditional, non-rectified sizes and larger surfaces with squared edges, suitable for continuous, jointless wall. The offer includes collections in porcelain stoneware, in which the power of cutting-edge technology teams with the design expertise the company is famous for: the enormous variety of sizes includes MAXXI sizes of up to 120x278. This is a catalogue with a fil rouge able to give shape to the needs of those seeking inspiration for furnishing their home, featuring options in rich colours or delicate nuances, representing the perfect blend of ceramic tradition and contemporary design.

# FIORANESE

CERAMICA

## HOW IS A STYLE CONCEPT BORN

An essential and sophisticated design combines with a functional, technological core that favours practicality of use and versatility, transforming Ceramica Fioranese porcelain stoneware into authentic furnishing accessories. The research is inspired by the outside world, and it intertwines with the natural allure of materials and the latest trends in fashion and interior design to be part of a contemporary lifestyle built on the needs of Man and the emotions that inspire him. This versatile creativity characterises all our collections of floor and wall coverings for residential and commercial spaces, organised according to specific aesthetic qualities and different uses. A perfect balance and stylish coordination in the choice of graphics, colours, shapes and finishes engages and interacts with the aesthetic and formal qualities of the surfaces to become the absolute stars of new designs and creative solutions.

MADE IN ITALY

Art and the hand of Man move the stone that vibrates through the light, revealing its structures and volumes. Coem uses technology to interpret these movements, turning them into new signs of beauty and applying them to an industrial item that becomes a design product everyone can enjoy. Coem research is carrying forward a project idea that emerges in the present and inspires us to imagine the future through intuitions and processes that follow a set of rules. Design works differently from art, requiring a careful eye on the whole world that revolves around new ideas, evolves through theory and technique and forms a close, intricate relationship with production systems and the beauty of living styles. Just like nature, design cannot exist without a plan, and it is this awareness that brings us collections in porcelain stoneware that are increasingly durable, beautiful, functional and accessible. Because Coem designs ceramics to engage with the world.
